# Thinking Classrooms @ G D Goenka, BBSR

**A**t G D Goenka Public School Bhubaneswar, we strongly believe that students learn to think in thoughtful classrooms, places where students enthusiastically grapple with important issues by considering multiple perspectives, developing informed opinions and effectively communicating their opinions to others. Creating this kind of environment is the biggest challenge teachers face, but teaching in such an atmosphere provided by GDGPSB will not only be rewarding, but enjoyable for students and teachers alike.

## The CBE Approach

- Competency-based education (CBE) is an approach to teaching, learning and assessment that focuses on the student's demonstration of learning outcomes and attaining proficiency in particular competencies in each subject.
- Differentiated support based on students individual learning needs.
- Progress based on evidence of mastery rather than time in the classroom.
- The use of formative assessment, particularly peer and self-assessment, where students are encouraged to reflect on their own work and identify areas for improvement.

**A**t G D Goenka, our experienced and highly qualified teachers implement the CBSE curriculum with International Practices to help students develop the critical 21st-century skills that they will need in the future. Our modern pedagogical approach allows us to naturally incorporate skills and competencies, such as creativity, critical thinking and collaboration. We provide students with the technology and experiential learning opportunities that they need to master these skills fully. They enjoy a well-rounded educational experience in a multi cultural school environment in which they can offer up new ideas and take the initiative for their own learning. At the end of the day, all of our students are future-ready and are capable of taking on any challenge that they may face.

# A Comprehensive Sports Education Programme (SEP)

**A**t G D Goenka Public School we believe that skills learned in physical education class should get transferred to skills used in a child's play. Be it the second-grade kid jumping a skipping rope or an older child playing a game of kick ball, a 'skilled' kid is more likely to participate in his/her physical activity.

## Highlights of our Sports Education Programme

1. We effectively organize space, equipment, and students.
2. We provide adequate equipment that allows each and every child to be active at the same time.
3. Students Indulge in practices that are structured for maximum participation (e.g. individual, partner, and small-group activities; non-elimination activities; activities that require no wait time).

**Football | Basket Ball |  
Lawn Tennis |Golf  
Course |Volley Ball  
|Discus Throw |  
Badminton Court  
|Table Tennis | Fuss  
ball |Chess | Carrom  
Pool | Cricket |  
Taekwondo.**

# Club Activities @ G D Goenka, BBSR

To provide a plethora of real-life experiences to children, they are given opportunities to join a school club of their choice.

Club activities not only integrate scholastic with non – scholastic activities but help explore the untapped talents and nurture them.

Undertaking Club activities has far-ranging benefits that touch on many aspects of a child's development and also every child to learn something that could stay with them for a lifetime.

A lot of the skills that lie at the heart of Club activities can be used while learning core academic subjects. Education requires solid problem-solving skills, memory, creativity, and critical thinking.

Further Club activities helps students to get engaged with other children in a social setting and it's a great tool through which it helps to learn important time management skills.

**Dramatics / Young Science /  
Maths / Art / Cuisine /  
Grooming & Etiquette/ Leadership  
Debating / Eco Sustainability /  
Music / Quizzing**

# Music & Dance Studio @ G D Goenka, BBSR

Learning, thought, creativity, and intelligence don't just come from the brain alone, but from the entire body. Thus, at GDGPSB we strongly believe that Dance integrated with academics will help children develop skills that are necessary for learning such as creativity, communication, critical thinking, and collaboration.

**Movement combinations in dance increase memory, order, and sequencing skills in students.**

Creating dances also increases self-esteem which is so very important to learning. We already witness the need for children to move throughout the day. Understanding the positive effects that music and dance have on students' development, we feel it is important for dance to be included in all grades as an integral part of the curriculum.

There are so many reasons why dance is important to the health and development of our young people. Above all, children need to move! Any way to get kids moving on their feet is a must (especially in a digital era). Dance burns calories, strengthens muscles, improves balance, increases flexibility, and gives the heart a good workout. Dance has also been proven to increase cognitive development.

**A**t G D Goenka, we believe that the benefits of music education are immense and highly important to students. Music positively impacts a child's academic performance, assists in developing social skills and provides an outlet for creativity that is crucial to a child's development. Music education catapults a child's learning to new heights, and because of this, it should always be considered a pivotal part of a child's educational process.

**M**usic education improves and develops language skills in children. Music stimulates the brain and with its varied sounds and lyrics, students are exposed to a large amount of vocabulary in a short amount of time. Music also provides exposure to other languages, which creates a foundation for the student's ability to understand and communicate in a different language. Music is also a vehicle for excellent memory skills.

# Special Programs @ G D Goenka, BBSR

*Wordsworth English Language Lab*

*Mind Spark - A Online Math Learning tool*

*Furtado School of Music*

*Coding*

*Robotics*

*Olympiads*

## **G D Goenka Promise of Quality Education**

Entire Goenkan experience will entitle each child to glide away to greater heights with confidence and assurance. We as a school provide opportunities for our children to learn as each Goenkan deserves the best.

**Career Counselling Wing – “Dreams Unlimited”** – It's important to start dreaming with open eyes and carve out a great career path....as nothing is I M POSSIBLE!!!

# State of the art Infrastructure

**ART STUDIO**

**AUDITORIUM**

**COMPOSITE  
SCIENCE LAB**

**DANCE STUDIO**

**CAFETERIA**

**MUSIC STUDIO**

1. CBSE based curriculum: designed and executed under the aegis of G D Goenka Group, New Delhi.
2. THINKING CLASSROOMS – A thinking student is an engaged student.
3. Discover GDGPSB's cutting edge Educational Paradigm
